greetings:

It affords us the greatest pleasure we know of, to be able to present you with this supplement to our 1931 catalog. The purpose of this supplement is for those enterprising aquarists, to be able to order from an illustrated folder, during the winter and early spring months. In the spring our full size catalog, with full description, will be published.

Should there be anything that you are in doubt about water plants, feel at full liberty to write us, our full knowledge lies at your door. Also remember that you are dealing with the only all-aquatic plant nursery in the world, with probably the largest variety of water plants ever gotten together. This should mean plenty to you when you order from us, the aquatic plant specialists of America. Eventually you will have our plants.

Sincerely,

J. D. Wallace.

our responsibility

While we give particular attention and exercise greatest care to have our plants genuine and true to name or description, we do not give any warranty, expressed or implied, or guarantee them to live or grow or give specific results. (No reliable firm does). In case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not be held responsible for a greater amount than the original price of the goods.

transportation

We ship all plants by parcel post or express, your choice, as follows: Plants shipped by parcel post are prepaid, BUT ARE NOT GUARANTEED. Plants shipped by express, are collect and WE GUARANTEE THEM TO ARRIVE IN GOOD CONDITION. If they should not, obtain bad order slip from express man and return same to us. We will ship by express, unless advised to the contrary.

substitution

Unless forbidden in your order, we reserve the right to send you equally good plants and better value than you asked for, when stock is exhausted. We have so many different varieties that we can make a very close substitution.
